

SEISNET™

NTRS2 GeoView

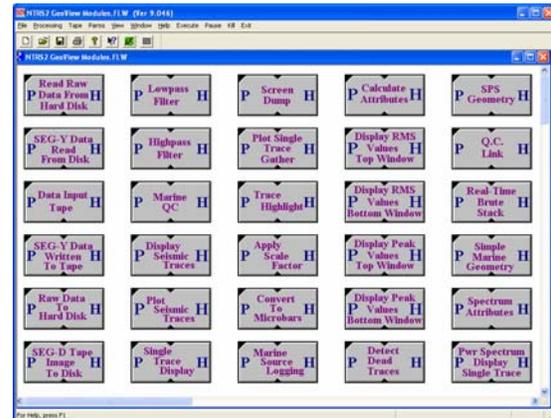

Seismic Data Quality Assurance

The perfect complement to
HTI's NTRS2 System

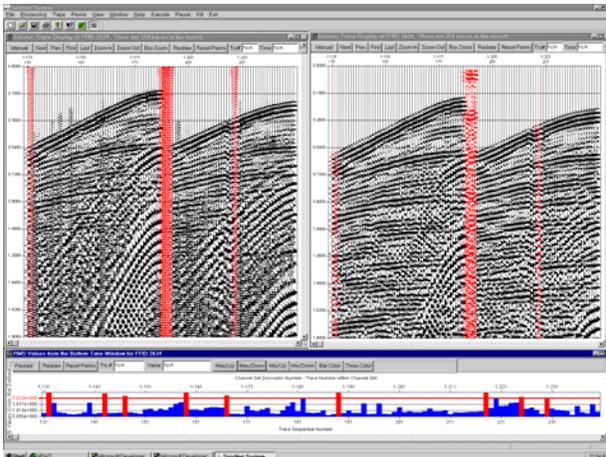

Featuring:

- NTRS2 Data display & plotting
- QC attribute analysis & display
- Tape Copy/Dual Write to all media formats
- Plot to V80 compatible plotter or GIF file
- Marine QC Display
- Display image GIF file capture & viewer
- Intuitive Graphical User Interface
- Windows operating system

Extensive QC tools

Raw/Filtered Data & RMS QC

Parallel processing flow capability enables complete utilization of the extensive range of SeisNet's processing modules to achieve optimum quality assurance and management of NTRS2 seismic data.

SeisNet is the worldwide, field proven, QA system of choice, for a number of major seismic contractors and recording system manufacturers.

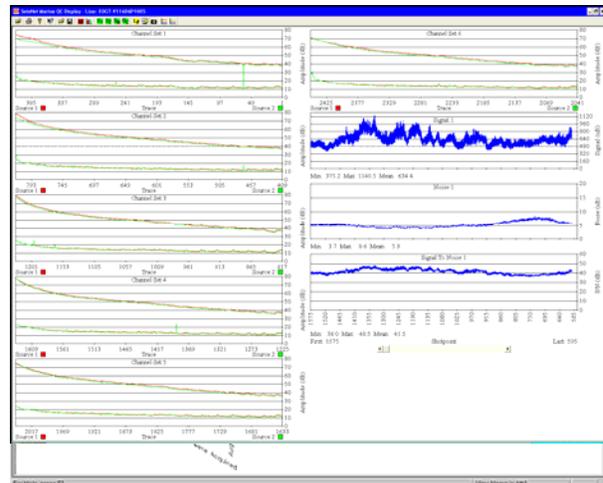

SeisNet's Marine QC Display capability provides real-time quality assurance of the NTRS2 recording system performance and seismic data integrity.

Display image GIF files created by SeisNet may be distributed and viewed using the SeisNet QC Viewer utility, providing a convenient cost effective, environment friendly alternative to paper plots.
